APRÈS

◇—————◇
The world as we know it is dead.

The city has become hostile; the horizon full of danger.

But from the chaos was born a shelter, "APRES", a place full of surprises in which you can protect yourself from the urban jungle.

In a post-apocalyptic universe, nature takes back its rights.

◇—————◇
"APRES" will become your new refuge, always welcoming you with:

- A French restaurant full to the brim with flavours from yesteryear to share with your fellow survivors.
- A retro cocktail bar.
- An area dedicated to socialising and partying, in which DJs will hype you up to dance throughout the night.
- A living, vegetalised terrace spreading over 300m2.
- An Ice Bar where time has stopped.
- Workshops and co-working areas perfect for solo and team working sessions, to regain strength or to chill.

A new world awaits you on the ground floor of the Kube Hotel Paris ... the world of APRES.
